

ICAS-ACT CONFERENCE 2026

ICAS - 2026

Indian Complex Arrhythmia Summit

1st Conference in India on management of Complex Arrhythmias including complex SVTs and complex Atrial & Ventricular Arrhythmias.

ACT - 2026

Advanced Cardiovascular Therapeutics

India's premier conference on Advanced technologies in Interventional Cardiology, Valves, Heart Failure & Structural heart diseases.

3rd - 4th April, 2026

Venue :-

Hotel Leela Ambience & Resorts

NH-8, Ambience Island, DLF Phase-3,

1st Conference in India on management of Complex Arrhythmias including complex SVTs and complex Atrial & Ventricular Arrhythmias.

- Learn from Most Renowned Masters of Electrophysiology.
- India's first and exclusive Full Day 3D Electro Anatomical Mapping (How to) Workshop !
- Live Complex Cases, Cryo, PFA & Newer Technologies Demonstrations !
- Case & Abstract Presentations : Best Case Awards.
- Comprehensive Training Village with Hands on!

India's premier conference on Advanced technologies in Interventional Cardiology, Valves, Heart Failure & Structural heart diseases.

- Learning opportunities from the Masters.of Interventional Cardiology.
- Conference includes all Cardiac Therapeutics and advances in Medical Management of Cardiac Diseases (Heart Failure, Anticoagulation, Antiplatelet, Ischemia etc.).
- Advances in Interventional Cardiology, Heart Failure & Structural Heart Therapies.
- Case & Abstract Presentations : Best Case Awards.

Message from the Conference Chairman

Dear Colleagues, Esteemed Faculty, and Delegates,

It gives me immense pleasure to welcome you to the upcoming edition of ICAS-ACT, a unique international conference dedicated to Cardiac Electrophysiology and Advanced Cardiovascular Therapeutics. As Chairman, I am proud to see this platform evolve into a leading academic forum bringing together experts and young minds from across the globe.

ICAS focuses on complex arrhythmias and cutting-edge electrophysiology, while ACT highlights advancements in interventional cardiology, structural heart diseases, and heart failure management. Together, they offer a comprehensive and integrated learning experience, reflecting the multidisciplinary nature of modern cardiology.

In today's rapidly advancing medical landscape, continuous learning and collaboration are essential. Innovations such as 3D electro-anatomical mapping, cryoablation, pulsed field ablation, and structural interventions are transforming patient care. ICAS-ACT serves as a vital platform to bridge the gap between innovation and real-world clinical practice.

This year, we are privileged to host around 500–600 distinguished international and national faculty and delegates. The scientific program includes live case demonstrations, interactive discussions, hands-on workshops, and case presentations. A key highlight is the exclusive full-day 3D mapping workshop, along with a comprehensive training village designed for practical learning.

Beyond academics, the conference fosters collaboration, networking, and the exchange of ideas. It provides an excellent opportunity for young cardiologists to learn from global experts and showcase their work.

Such conferences play a crucial role in advancing knowledge, inspiring innovation, and ultimately improving patient outcomes.

I extend my sincere gratitude to all faculty, delegates, and partners for their support, and I look forward to welcoming you to ICAS-ACT.

Warm regards,

Dr. T. S. Kler
